If you intend to take any action or inaction based on the guidelines and/or the PSS, it is recommended that you obtain your own professional advice based on your specific circumstances.

Child/Young Person's Details:

Full Name: _

Date of Birth:

_____ Age: _____ Gender: *Male*

Prefer not to say

Pre-exercise screening results will be kept as confidential files and shared only among individuals involved in the event of urgent medical care, and/or with the consent of the young person and/or parent/guardian.

STAGE 1 (COMPULSORY)

To be completed with a parent/quardian in conjunction with an exercise professional or the individual who is responsible for the medical care of the young person.

These questions are part of a screening system designed for young people participating in exercise. The aim is to identify any young person with medical conditions or warning signs that may put them at a higher risk of an unwanted event during activity or exercise sessions. Unwanted events may include something unexpected during exercise leading to illness, physical harm or death.

Definition of Child: Any young person between the age of 5-15 years old in your care

24-hour Physical Activity Guidelines

Following these guidelines may be challenging at times; however, meeting them will benefit health. Achieving these guidelines is associated with better health and leads to improved body composition, cardiorespiratory and musculoskeletal fitness, cardiovascular and metabolic health, academic achievement and cognition, and improved mental health and emotional regulation. For those not currently meeting these guidelines, a progressive adjustment towards them is recommended.
